

## MSE 2300: CHM:Alchemy, Artisanshship& Chm

This course examines introductory chemistry topics in a modern and historical light including how the current knowledge of chemistry is owed to Greek philosophers, Islamic healers, Western artisans, monks, and the alchemists. The laboratory recreates chemistry-related activities of the past (e.g., soap and dye-making).

**Credits:** 4.0

**Program:** Department Chemistry and Biochemistry
