

## CHE 6000: CBE Co-Op

CBE Co-Op is an optional course for juniors entering their senior year. The Co-Op is to be completed with a company for 6 months during the summer and fall semesters. The course should be 0 credits in the summer session and 12 credits in the fall. The co-op must be engineering-related and allow the student to gain real world experiences as chemical, biochemical engineer or closely related field.

**Credits:** 6

**Program:** [Chemical Engineering](#)
