

# Registration

Registration for the fall semester and summer sessions usually takes place in March, while registration for the spring semester usually takes place in October. All VSB first-year students and sophomores are required to meet with their Peer Advisor and/or their Academic Advisor to go over the curriculum requirements and to receive their registration PIN before registering for an upcoming semester. Although juniors and seniors receive a generic registration PIN, they are encouraged to meet with their academic advisor.

**Note:** A student may not sit in a closed section of a course with the intention of being added to the class at a later date. A student cannot be signed into a closed section by the faculty member.
